Dear Parents/Guardians

Asalamu'alaykum

RE: Live Support Sessions

I pray that you are all well Insha'Allah

The students have been working well on Google Classroom, and during this uncertain time we have been reviewing our remote learning programme. We have maintained a good learning programme via Google classroom and we would have liked to have been back at school by now. However, due to the uncertainty in all spheres of education at the moment, we have been looking into the best way we can support the students with continued remote learning.

As part of the Google Classroom programme, we will be running some live support sessions to further enhance the teaching taking place, although these will not replace the work posted on Google Classroom and we will not be able to offer full timetabled live lessons for all subjects and all lessons.

These sessions will be taking place under the MIET domain in Google Classroom. Please find attached a protocol that students are expected to follow, giving more details about the live sessions. This is to ensure the appropriate safeguarding procedures are followed for both the safety of the students and the teachers.

Teachers will send students links to their live sessions on their Google Classroom. It is the responsibility of individual students to remember the date and time of any live lessons. To do this, students will find it useful to use "Google Calendar" which can be accessed on Google Classroom.

I hope these sessions prove to be fruitful and helpful for the students, and further accommodate their learning. We hope that we can all return safely to a physical school and classroom as soon as it is safe to do so, Insha'Allah.

Thank you for your continuous support.

Wassalam

Mrs M Mohamed
Head Teacher
